Statistics Show a Decrease in Our Exports and Imports

Chief Switzler, of the Bureau of Statistics, has completed his annual report of foreign commerce. It shows a falling off in our foreign trade during the last fiscal year of \$93,251,921. Comparing our foreign commerce with that of other nations, Great Britain stands first, Germany second, France third and the United States fourth. The most notable features of our foreign trade during the last fiscal year, as compared with the trade of 1884, was a decrease in imports of merchandise of \$9,000,000. The decrease occurred mainly in imports of sugar and molasses, and iron and steel, and manufacturers of iron and steel. Great Britain not only takes about 60 per cent of our agricultural and manufactured products, but also a larger share, amounting to 27 per cent. of our manufactures, than do Central America, the West Indies and South America combined.

An Expected Appointment.

The papers in the case of the office of Surveyor-General of the State of California have been taken from the Interior Department to the White House, and it is believed that the appointment will be made very soon. The indications now point to the selection of R. P. Hammond, Jr. There are quite a number of applicants for the office, among the most prominent being Messrs. Hammond, Livingston and Rodgers. Congressman Henry endorses Hammond, and Judge Field is supporting Mr. Livingston. Mr. Hammond is a native of California, a nephew of Colonel Jack Hayes, the "Texas Ranger," a young man said to be possessed of excellent business capacity, and thoroughly qualified for the appointment.

Republican Senators Convening—
Revenge of Bounced Officials.

A Washington dispatch says the Republican Senators held a caucus on the 16th inst. At this meeting there was an interchange of views between the leading men as regards the political situation, which the Republican Senators fear is not even flattering for the future of the Senate majority and the party. The two thousand appointments to federal offices which have been made by the President, since April, will come before the Senate as Presidential nominations for confirmation in December, and this immense list of civil changes, the greatest at any one time in the history of the government, will be one of the subjects of paramount interest. This meeting was only preliminary to more formal caucuses later on, but will, nevertheless, have an important bearing upon the subsequent action of the Senate majority towards the Administration.

It is conceded that many nominations will fail of confirmations, for various reasons, which are common to all administrations. Republican officeholders who have been removed upon the charge of offensive partisanship have been, in many instances, active all summer, and the new appointees will be astounded to learn that their past lives, with every blot upon their characters, have been carefully collected and presented to the Senate Committee. The Senate majority had not discouraged this system because it is deemed but fair retaliation for the offensive manner in which some officials have been bounced.

The Republican Senators feel that they are about all there is left of the party, and their majority is the only check to Democratic methods not pleasing to the rank and file of Republicans. The present majority in the Senate must be maintained at all hazards, they say, to preserve the equilibrium of politics. About every Republican Senator disclaims any intention of placing a stumbling block in the way of the President, and they maintain that no captions opposition will be interposed in the regular order of changes in the offices; but, notwithstanding these assertions, a feeling has been gradually hardening into a determination that they must show their hands soon to encourage the disconsolate Republican workers. This determination is much strengthened by the hostile attitude of Senator Eustis and two or three others toward Mr. Cleveland. These disaffected Democrats will make trouble if they can, and Republican ears in high places have already listened to their plans. If Senators Eustis and Blackburn have any grievance against the man at the White House, the public may rest assured that it will be manifested in thoroughly practical manner when Congress assembles.

POOR NEVADA.

The Greenville Bulletin hits Nevada a lick on the nose by saying:

Now that Sharon is dead, what will Nevada do for a candidate for U. S. Senator. Mackay, of Paris, does not want the position, Gould, of New York, is too busy to accept and Vanderbilt is wanted in the "Empire State." Nevada, therefore, is in a bad fix. If she has not material of her own for Senator is not that a good reason why she should be deprived of her statehood and attached to California, on whom she has made calls of men of sufficient ability (?) to represent her in the national Senate?

It is charged that Lieutenant Governor elect Jones, of New York, has not yet paid his assessment to the Democratic committee. This delay is certainly unwarrantable, especially in a man who is always boasting in print that "Jones, he pays the freight."—S. F. Post.

The JOURNAL has heard of a District Judge in Nevada who was assessed \$250 when he was nominated in 1882 but who has not yet paid the assessment although he has drawn \$10,000 in salary.

Are the people of Nevada like the old colored woman, willing to be forced?—Reno JOURNAL.

No Christopher, we hope not—not in the same way at least.—Times-Review.

GRAND ARMY POSTS.

Progress of the Good Work in Ne-

vada.

At Elko, there are quite a number of Union veterans, and a larger number in the neighboring mining camps and stock ranches, who ought to form a post with headquarters at Elko. Comrade Kinne was there on business recently, and spent some time one evening in interviewing a few of the old soldiers, and urged them to take action at once.

The "pogonip" that pours down from Ruby Hill to chill the marrow of the dwellers of Eureka, does not seem to cool the ardor of the comrades of Upton Post.

Winnemucca fails into line with a new Post, having a good list of charter members and considerable materials in the vicinity to gain recruits from. The Post was organized by Post Department Commander C. Mason Kinne, who visited Winnemucca on his insurance business and utilized the evening in getting the old veterans into shape. The Post starts out with a good deal of enthusiasm.

Commander Hark, of Custer Post, at Carson City, reports a renewed interest in Grand Army matters at that point, and that he expected to turn over the command to Comrade H. F. Bartine, who will be unanimously chosen Post Commander at the next meeting of the Post.

General O. M. Mitchel Post, at Reno, is growing quite rapidly, mainly from the exertions of Post Commander Lindsey, who is scouting around after recruits and musters them in as he goes along, leaving Senior Vice-Commander Laycock in command.

Custer Corps, No. 15, at Carson City, Mrs. Judge Leonard President, has adopted the plan of having some literary matter at each meeting, and the result is evident in giving a new interest to the otherwise somewhat monotonous routine of corps work.

Comrade Evans and others propose to interest the ladies of Reno in Grand Army work, and hope very soon to have them apply for a charter to form Mitchel Corps, auxiliary to that Post.

SENATOR MAHONE'S FUTURE.

A special from Richmond says: It is said here that General Mahone would be offered the position of General Manager of the Chesapeake and Ohio Railroad Company in place of C. W. Smith, resigned, but the report could not be verified, as Mahone is not in the State. A Western special says that Mahone will settle in the Missouri Valley, not the Red River Valley, as before reported, and will not attempt to build up his political fortunes.

REPUBLICAN CORONER FOR NEW YORK.

Official returns show that Eidman (Rep.) was elected Coroner at the recent New York City election by 507 majority. Eidman has always claimed his election since November 4th, and intimated that he was likely to be counted out. The official count closed Tuesday, but has not yet been given out. Eidman's counsel conceded a so-called mistake in his opponent's favor of 100 votes. Counsel for Demarest (Dem.) concedes Eidman's election.

SPAKER CARLISLE ILL.

Speaker Carlisle was so ill when he arrived at Washington Thursday afternoon that he was obliged to take to his bed immediately. Visitors are not permitted to see him and cards are not taken to his room.

THE CARSON APPEAL SAYS:

Senator Stewart has ably represented Nevada in the Senate before, while Senator Fair has done absolutely nothing for it. Stewart is living here now, while Fair has not been here for two years.

Stewart has not yet taken up his residence here. He had better hurry up. Fair has the advantage over Stewart in this matter in the fact that he has never lost his residence in the State.

Have the people of Nevada no rights that outsiders are bound to respect?—Reno JOURNAL.

Certainly they have—the right to vote for Californians for United States Senator, and we would like to see the color of the man's hair who could divest them of that privilege.—Times-Review.

De Losseps celebrated his eightieth birthday Thursday. He is confident he will live to sail through the Panama canal.

FAMOUS MEDICINE MEN.

Messrs. Root & Tinker, of New York City, who have published from time to time handsome lithograph portraits of the prominent Journalists of the United States and Great Britain, have just issued a very attractive engraving 22 by 28 inches, of the leading Proprietary Medicine Manufacturers of the United States, including Dr. J. C. Ayers, C. I. Hood, Dr. Hostetter, of "Hostetter's Bitters," John Hodge, of "Merchant's Gargling Oil," Mr. Scott, of "Scott's Emulsion," Dr. J. H. Schenck, H. E. Bucklen, of "Electric Bitters," Mr. Powell, of "Iron Bitters," Dr. Tatt, Dr. Brandreth, of "Brandreth's Pills," and H. H. Warner, of "Warner's Safe Cure," and "Tippecanoe" fame. We doubt if a more attractive looking group of eleven men could be got together from any one walk of life. As is quite appropriate the central figure is H. H. Warner, the background of whose vignette is his trade mark of an iron safe inscribed with the names of the famous Warner's Safe Remedies. Mr. Warner is the most prominent as well as the most successful proprietary medicine manufacturer this country has yet produced, and his zeal in the prosecution of his business grew out of the fact, in large measure, that he himself when given up to die as incurable of an extreme kidney disorder in 1879, was cured by the remedy to which he has given world-wide fame—"Warner's Safe Cure." The sale of the "Warner's Safe Remedies" has been so widely extended that warehouses and laboratories for their manufacture have been established in all quarters of the globe, not the least prosperous being one in far distant Australia. People have erroneous notions, both of the motives and character of proprietary medicine men. As a rule they are solid, substantial, trustworthy citizens, who win the success that comes to them purely through the merits of the goods they produce and of the work they perform. This is especially true of the central figure of the group. This picture hanging side by side with prominent journalists, religious, political and foreign will attract more attention than those editorial writers, because there is hardly a person who walks the streets who has not either used some of the remedies manufactured by these men, or had their interest stimulated in the gentlemen themselves by the record made by their remedies among personal friends. This picture is sent out by Mr. H. H. Warner, who, besides having won such distinguished fame as the manufacturer of "Warner's Safe Cure" is well known as the founder of the "Warner's Astronomical Observatory," Rochester, N. Y., and the "Warner Astronomical Prizes," for cemetery discovery, so eagerly sought for by astronomers all over the world. Mr. Warner is a self-made man, and those who know him best say that the success which he has won thus early in life (he being at present not over 45 years of age), is in all respects eminently deserved, for he is a man of very broad views, and wide-extended liberality.

NERVOUS DEBILITATED MEN.

You are allowed a free trial of thirty days of the use of Dr. Dye's Celebrated Voltaic Belt with Electric Suspensory Appliances, for the speedy relief and permanent cure of Nervous Debility, loss of Vitality Manhood, and all kindred troubles. Also for many other diseases. Complete restoration to health vigor and manhood guaranteed. No risk is incurred. Illustrated pamphlet by addressing Voltaic Belt Co., Marshall Mich

THE ALTAR.

LEMBERGER-SESSONS—At Fort Bidwell, Cal., November 11, 1885, Mr. W. F. Lemberger, of Fort Bidwell, and Miss Celia Sessions, of Reno.

NEW TO-DAY.

NOTICE.

NOTICE IS HEREBY GIVEN THAT there will be a meeting of the stockholders of the Pyramid Lake Mining Co., a corporation, at the office of the Co. Chambers' Building, Virginia street, Reno, Nevada, on November 6th, 1885, at one o'clock P. M. for the purpose of electing a new Board of Trustees to serve the ensuing year, and to take into consideration any and such other and further business as may come before said meeting of stockholders of said Co., to have been held on second Monday in November of each year. By order of the Board of Trustees.

PIERCE EVANS, Secretary.
Reno, November 20, 1885.

A Novelty.

A novelty in the way of a potato digger and cultivator can be seen in front of Gallatin & Folsom's store.

REPORTS OF GOVERNMENT CHEMISTS

As to Purity and Wholesomeness of the Royal Baking Powder.

"I have tested a package of Royal Baking Powder, which I purchased in the open market, and find it composed of pure and wholesome ingredients. It is a cream of tartar powder of a high degree of merit, and does not contain either alum or phosphates, or other injurious substances. E. G. LOVE, Ph. D."

"It is a scientific fact that the Royal Baking Powder is absolutely pure. H. A. MOTT, Ph. D."

"I have examined a package of Royal Baking Powder, purchased by myself in the market. I find it entirely free from alum, terra alba, or any other injurious substance. HENRY MORTON, Ph. D., President of Stevens Institute of Technology."

"I have analyzed a package of Royal Baking Powder. The materials of which it is composed are pure and wholesome. S. DANA HAYES, State Assayer, Mass."

The Royal Baking Powder received the highest award over all competitors at the Vienna World's Exposition, 1873; at the Centennial, Philadelphia, 1876; at the American Institute, New York, and at State Fairs throughout the country.

No other article of human food has ever received such high, emphatic, and universal endorsement from eminent chemists, physicians, scientists, and Boards of Health all over the world.

NOTE.—The above DIAGRAM illustrates the comparative worth of various Baking Powders, as shown by Chemical Analysis and experiments made by Prof. Schreder. A pound can of each powder was taken, the total leavening power or volume in each can calculated, the result being as indicated. This practical test for worth by Prof. Schreder only proves what every observant consumer of the Royal Baking Powder knows by practical experience, that, while it costs a few cents per pound more than ordinary kinds, it is far more economical, and, besides, affords the advantage of better work. A single trial of the Royal Baking Powder will convince any minded person of these facts.

While the diagram shows some of the alum powders to be of a higher degree of strength than other powders rank'd below them, it is not to be taken as indicating that they have any value. All alum powders, no matter how high their strength, are to be avoided as dangerous.

TOWN AND COUNTY.

RECEIVINGS

Wish Sharon had left that \$10,000 to the University.

Ben Fitch, of Elko, was a passenger for the Bay last night.

Pierce Evans leaves for Susanville this morning on legal business.

The annual meeting of the stockholders of the Pyramid Lake M. Co. will be held Dec. 5th.

Thos. Bell, of the Bank of California, was a west-bound passenger on last night's train.

The Knights of Pythias will give a grand masquerade ball either Christmas or New Year's.

The assessment of fifty cents per share on Chollar will become delinquent in the Board to-day.

A novelty in the way of a potato digger and cultivator can be seen in front of Gailatin & Folsom's store.

Mrs. Alt will be here herself to-night to conduct her regular soiree at Armory Hall, and also every Saturday night hereafter.

The Anglo Nevada Assurance Corporation, with a capital of \$2,000,000 will be ready to write policies on the 1st of December.

The Enterprise says William Sharon donated \$10,000 to the Nevada Insane Asylum, and not to the State Orphans' Home, as has been mistakenly stated.

On our second page to-day will be found a striking and instructive illustration of the comparative worth of the various kinds of baking powders now in the market.

Peter Boyce, who has been a resident of town about a month, departed for the Bay last night. This deit manipulator of the ivories made many friends during his stay by his gentlemanly manner and upright conduct, and they hope he will come back to stay.

Esmeralda Items.

Several small gold ledges have been found near Webster's ranch on the East Walker. They are taking out a ton a week of \$100 rock.

A gold-bearing ledge has been found near Marietta, which assays from \$41 as high as \$78 a ton.

More discoveries of gold are said to have been made within the past few days near the Lapanta.

The tailings of the Kinkead mill show no value. The ore averages \$15 per ton. This is in reality working it "for all it is worth." The mill is now running steadily.

The Railroad.

Thus far the heavy storm has made no difference to the running of the trains on the Virginia and Truckee Railroad. The road is in excellent condition, with culverts and bridges in substantial repair, therefore it is not liable to get out of order or its traffic and travel interrupted by the elements.

To beAppealed.

The Silver State is informed that it is the intention of counsel for Millard Wyatt, sentenced to State Prison for life, to appeal the case to the Supreme Court. A motion for a new trial was denied by the District Court.

Agricultural Society.

The total cash receipts of the late State Fair were \$8,231.55, and the expenses \$7,793.41. The Society has \$438.14 in cash on hand, and \$555 due from life memberships, subscriptions and entrance, a total of \$938.14 to start in with next year.

Hose Meeting.

There will be a meeting of Fearless Hose Co. No. 1, at their engine house, on Sunday, November 22d. A full attendance is requested. By order,

J. T. THOMSON,

Editor.

The State Orphans.

Superintendent Williams, of the State Orphans' Home, reports fifty-five children in the Home, all flourishing, in good health and with glorious appetites.

The Aurora Sale.

The London Mining Journal, of October 31st, says:

Consolidated Esmeralda (Limited).—Object, purchase, lease, or otherwise acquire, land, whether or not for mining purposes, gold mines, water rights, mineral and timber at Nevada, U. S. A., and adopt and carry into effect an agreement dated October 19, 1885, and made between Alfred E. Ann, of the one part, Mr. Thomas Parr, as trustee of the company, of the other part, for the purchase of certain land in Esmeralda county, Nevada; the purchase money being the sum of £13,500, etc. Registered by Thomas Parr, 33, Leonard-street, Finsbury, E. C. Capital, £500,000, divided into 500 shares of £1 each. The first subscribers (who take one share each) are—Archibald Thomson, engineer, Cazenove-road, Stamford-hill, A. Beldam, merchant, 77, Gracechurch-street, E. C.; John Mather, 8, King-street, Manchester; Thomas Parr, merchant, 83, Leonard-street, Finsbury, E. C.; J. S. Porter, merchant, 26, Mildmay-chambers, E. C.; John Gillespie, iron merchant, 35, Queen Victoria-street, E. C.; James Purr, merchant, Cecile Park, Crouch End, N. The number of directors to be not less than five nor more than 10. Archibald Thomson, William Farmer, John Mather, Apsley Beldam, Thomas Parr, and Arthur Davy, and after the allotment of shares, H. M. Xerington and Alfred E. Ann to be the first directors. Qualification 500 shares.

The Boss Boot and Shoe Store.

The sloppy condition of the streets has caused a tremendous rush for Arctic and rubber overshoe. As usual the live and enterprising boot and shoe merchant, John Sunderland, who is always up and level with the times, was prepared with a large invoice of these protectors against colds, and his flourishing establishment has been thronged

night and day since the storm set in with purchasers of foot wear. His sales of overshoe during the past three days aggregate over 100 pairs. His one horse competitors in the meantime have grown green with envy at observing people pass their shops without stopping to inquire the price of their justly all-made-for-the-same-foot, gun-boots, second-hand rubbers and holdovers. Arctic, walk right into Sunderland's and come out smiling, their feet increased in a brand new covering of the latest style and their countenance illuminated with a smile of satisfaction.

The Coming of the West.

The Enterprise, of yesterday, says:

"A telegram received by Manager John Piper last evening from Mr. Chizzon, the manager for Madame Emma Nevada, San Francisco, definitely fixes the date of her appearance at the Opera House, in this city, to be Thursday, the 3d of December next; instead of Friday, the 4th, as heretofore announced. This settles the matter, and our citizens will be given an opportunity to see and hear the famous sagebrush singer, who has borne the name of Nevada with such exalted honor through the old countries beyond the sea."

Silk Suit.

The suit of L. B. Frankel, the well-known stock broker of Virginia, against Phillip Deidesheimer, formerly a Comstock mining Superintendent, but now operating in the mines of Sierra county, California, for the recovery of upwards of \$40,000 due on a stock transaction, was decided in favor of Frankel, who was awarded judgment for the full amount in the Superior Court at Downieville last Monday. Deidesheimer's counsel have given notice that the case will be appealed to the Supreme Court of California.

The Lieutenant Governor's new Bond.

In regard to the new bond which Lieutenant Governor Laughton is said to have filed as State Librarian, the Index says: "On the 16th inst. the Lieutenant Governor offered to Governor Adams a new bond, which the latter declined to accept or approve on the grounds that the Supreme Court had decided that the Lieutenant Governor had forfeited the right to the office of State Librarian, and another person had been appointed thereto. The bond was returned to the Lieutenant Governor under the date of the 16th."

Insure.

J. C. Smyles was brought in from Winnemucca last night, having been committed to the Insane Asylum. The commitment indicates the disease to have been caused by alcoholic excesses, and that it is of an acute nature and increasing.

Analyzing the Baking Powders.

Under the direction of the New York State Board of Health, eighty-four different kinds of baking powders, embracing all the brands that could be found for sale in the State, were submitted to examination and analysis by Prof. C. F. Chandler, a member of the State Board and President of the New York City Board of Health, assisted by Professor Edward G. Love, the well-known late United States Government chemist.

The official report shows that a large number of the powders examined were found to contain alum or lime; many of them to such an extent as to render them seriously objectionable for use in the preparation of human food.

Alum was found in twenty-nine samples. This drug is employed in baking powders to cheapen their cost. The presence of lime is attributed to the impure cream of tartar of commerce used in their manufacture. Such cream of tartar was also analyzed, and found to contain lime and other impurities; in some samples to the extent of 93 per cent. of their entire weight.

All the baking powders of the market, with the single exception of "Royal" (not including the alum and phosphate powders, which were long since discarded as unsafe or inefficient by prudent housekeepers) are made from the impure cream of tartar of commerce, and consequently contain lime to a corresponding extent.

The only baking powder yet found by chemical analysis to be entirely free from lime and absolutely pure is the "Royal." This perfect purity results from the exclusive cream of tartar specially refined and prepared by patent processes of the N. Y. Tartar Co., which totally remove the tartrate of lime and other impurities. The cost of this chemically pure cream of tartar is much greater than any other, and on account of this greater cost is used in no baking powder but the "Royal."

Prof. Love, who made the analysis of baking powders for the New York State Board of Health as well as for the Government, says of the purity and wholesomeness of the "Royal":

"I have tested a package of 'Royal Baking Powder' which I purchased in the open market, and find it composed of pure and wholesome ingredients. It is a cream of tartar powder of a high degree of merit, and does not contain either alum or phosphates, or any injurious substances. E. G. Love, Ph. D."

Esmeralda's Ore Output.

During the twelve months ending November 1st, the shipments of ore and bullion from the northern end of Esmeralda county, including only as far south as Soda Springs, was \$594,000. For the twelve months preceding the amount was \$566,000. The Walker Lake Bulletin says: During the last year the Mount Cory was a producer for but four months, and still the total has increased. This increase arises from the proceeds of the numerous mines which have been opened and worked in the districts along the line of the O. & G. R. R., and as yet includes but little from the gold mines of Hawthorne District.

The Granite Saloon.

Geo. Becker continues to supply both liquid and substantial refreshments for the tinner man regardless of the weather. And his popular saloon is just the cosiest and most comfortable place imaginable to sit and read the papers from all parts of the country and keep posted on whatever's going on in the world."

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain, or cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. Feb. 21-awf-lyr
